

Code Review

Group 45

Build

Could you clone from git and build using the readme file?

Cloning was fairly smooth after a link to the Github was provided, but the program does not compile and there is no README to follow.

Legibility

Was the flow sane and were variable names and methods easy to follow?

There was no code provided.

Does the code adhere to general guidelines and style?

There was no code provided.

Implementation

Is it shorter/easier/faster/cleaner/safer to write functionally equivalent code?

I don't understand this question. There was no code provided.

Do you see useful abstractions?

No.

Maintainability

Are there unit tests?

No.

Should there be?

Always.

Are the unit tests covering interesting cases?

N/A.

Are they readable?

N/A.

Requirements

Does the code fulfill the requirements?

I don't know of any requirements for the group, and there is no code, so yes? No?

Other

Are there other things that stand out that can be improved?

Yes, quite a few. Documentation, clear goals, preparation, etcetera.

Overall score: 1/4
